STAFF

Tejas Vidyalaya has a staff strength of over 100 highly qualified and experienced teaching / non-teaching members. At Tejas, we believe there is no end to learning. Emphasis is laid on personal motivation and sustained efforts in expanding one's knowledge base. Formal training programmes at regular intervals are also organized by the school to keep the staff abreast with the latest trends and techniques in education. Tejas teachers actively participate in State and National level symposiums and workshops and have won many awards for their efforts and contribution.

ACADEMICS

Tejas Vidyalaya is a full-fledged co-educational school with classes from Nursery to XII. It is affiliated to the Gujarat Board of Secondary and Higher Secondary Education (GSHSEB), which is one of the recognized and approved All India boards of secondary education in Gujarat. English is the medium of instruction at the school.

KINDERGARTEN (NURSERY, K1 & K2)

The Kindergarten is a 3 year programme and is approached as an extension of home. The basic premise of this progressive curriculum is to give opportunity to children for self learning, making each minute valuable to help them reach their maximum individual potential. This programme recognizes each child as a unique and capable individual; it fosters creativity, encourages curiosity and love for learning. It allows for optimum growth and development in a positive learning environment which promotes feelings of self-worth and success.

PRIMARY (I TO VIII)

The Primary Curriculum reinforces previous learning experience. The curriculum provides the young learners with a carefully planned sequential course of study including Mathematics, English, Science, Social Studies, Gujarati, Hindi, Computers, Art, Physical Education, Music and Dance.

In addition to the curriculum, special projects, field trips and lessons are planned to encourage children to explore different areas of interest that complement the curriculum.

Working, sharing and playing together are important activities in the primary grades – I to IV, resulting in readiness and enthusiasm for learning. The curriculum in grades V to VIII builds on these basic skills and makes the children more responsible for the next stage of learning.

SECONDARY & HR SECONDARY (IX TO XII)

The Secondary and Higher Secondary section focuses on skill development through a meticulously planned curriculum which helps students to choose and prepare themselves for their future career.

Tejas Vidyalaya offers Commerce and Science Streams at the Higher Secondary level. A variety of teaching methods are used in our classrooms to address different needs of the students through observation, experimentation, group discussions and project work. They are given opportunities to understand in a broader dimension to apply their knowledge to solve problems. The academic curriculum is balanced by participating in Art, Music, Sports and other co-curricular activities.

Special emphasis is laid on working with students who need improvement in particular subjects to clear the board examinations. The educational programme shifts in its emphasis towards preparation of students for the GSEB examination. The students are prepared emotionally to handle the stress and anxiety of examination pressure.

PARENTS AS PARTNERS

Tejas firmly believes that student success is built on a strong partnership between parents and teachers. The school works hard to foster trust between the two. We encourage parents to volunteer and be actively involved in the education of their children.

We take care to keep the parents updated about the academic and social progress of their children. The school holds regular meetings, seminars, and report reading sessions to ensure that parents are well informed. We look forward to knowing your child and playing a part in helping each of them set and achieve their goals. It is our intention to give parents what they deserve for their children, the BEST!

We believe that when we work together, our children benefit.
